Professional Services Engineer Sr. Consultant in Cloud Platform & Infrastructure

Professional experiences

Since Jan. 2018 Professional Services Engineer @ Varonis Systems

- Helping customers to get the best from all the Varonis security products and solutions.
- Interacting with sales/partner leads and technical stakeholders to translate customer requirements into recommendations for appropriate architectures solutions in terms of effectiveness, cost and performances.
- Define and deliver on-site technical engagements (with partners or not). This includes participating in on-site visits with customers to realize several actions such as: installation of Varonis infrastructure, migration, update, trainings, security council/guidance for specific customer's requirements.
- Intervention perimeter: On-site in continental Europe (France, Belgium, Netherlands, Luxembourg and further remotely) in French & in English.

Sept. 2016 – Dec. 2017 Sr. Consultant @ Avanade France

- ⇒ **EUROP ASSISTANCE (Spain, France)**
 - Office 365 migration for the whole group insurance group (deployment of the hybrid infrastructure to process the migration, making the migration, help the customer during the whole phase) for France, Spain and Holding companies. Creating deliverable documents and make the different technical & functional meetings with customer teams.
- ⇒ **EUROP ASSISTANCE (Belgium)**
 - Migration of all the on-premise infrastructure to the Microsoft Azure Cloud (Active Directory, File & Print servers, ...).
 - Azure network configuration (private network & subnets organization, VPN Site2Site then Azure ExpressRoute) - Using several features in Azure such as: Resources Groups, Storage Accounts, internal/external Load Balancers, Availability Set, NSG, etc.
 - Preparing the deliverables (architecture documents, procedure installation, naming conventions, etc.)
 - Office 365 migration (Exchange Online, SharePoint Online)
 - Design and installation of a new XenApp / XenDesktop 7.13 infrastructure hosted in Azure & PowerShell scripting automation
 - Installation & configuration of the NetScaler network appliances (NetScaler Gateway & VPN)
- ⇒ **EUROPEAN COMMISSION (Belgium)**
 - POC realization to set up a Citrix XenDesktop infrastructure in the Microsoft Cloud. All the infrastructure has been hosted directly in Azure (VDI desktops and server components) with: load balancer, availability set, virtual network, storage accounts.
 - Tools: Cloud Microsoft Azure, Windows Server 2012 R2 & Windows 10, XenDesktop 7.11.
- ⇒ **HERMES**
 - Technical Lead for the applications migration from old Citrix / Microsoft environments to a new infrastructure that runs on Windows Server 2012 R2 and Citrix XenApp 7.8.
 - Managing the customer relationship and help consultant when needed for the applications migration.
 - Tools: VMware vSphere, Windows Server 2012 R2, Citrix XenApp 7.8, AppSense.

May 2014 – Aug. 2016 Consultant @ Avanade France

- ⇒ **L'OREAL**
 - Deployment of a new MIM 2016 infrastructure and migration of previous synchronizations rules (from bulk and Active Directory sources) to the new infrastructure to synchronize identities between different Active Directories (identities management).
 - Realizing the architecture design, installation and configuration guides and PowerShell scripts to automate all the components installation
 - Tools: Microsoft Identity Manager 2016, Windows Server 2012 R2, Active Directory, SQL Server 2012.
- ⇒ **CA-CIB (French investment bank)**
 - Due to the obsolescence of the servers (hardware & OS) on trading infrastructure, the bank need to migrate all its applications on new on-premise infrastructures. The datacenters are located in Paris & UK (depending on the applications). All the applications are considerate at risk because of the trading activities (exploiting data markets).
 - Integrated in the Accenture Services Center as technical project manager to prepare, schedule and manage the deployments with UK, Paris and offshore teams in Singapore.
 - Accountable for planning, budget, teams and reporting to the management & direction.
- ⇒ **AXA TECH (French insurance)**
 - PowerShell developer on Windows Azure Pack (WAP) to customize the portal to meet the customer's need (PowerShell, SQL procedures)
 - Automation in PowerShell of managing accounts in Active Directory, SMTP relays, and IP authorized in F5 appliances.
 - Using all bricks of System Center: Configuration Manager (SCCM), Virtual Machine Manager (SCVMM) in an on-premise infrastructure (on Hyper-V). Scrum, Visual Studio, TFS and F5 appliances for the network.

Sept 2012 – Apr. 2014 Sr. Analyst @ Avanade France

- ⇒ **CARREFOUR (French retail)**
 - Consulting to design a Citrix XenApp 7.5 platform. Creation of all the deliverables to deploy a SBC platform (200 apps & 2 000 users): architecture design, installation and configuration guides, PowerShell and batch scripts to automate all the components installation.
 - Tools: VMware vSphere 5.0, Citrix XenApp 7.5, UniPrint Infinity, MS Application Virtualization (App-V), Windows Server 2008 and 2012 R2 and cluster SQL Server.
- ⇒ **VINCI ENERGIES (Energy)**
 - Migration to Office 365 for all employees of VINCI Energies on the French territory. Planning and monitoring of all the entities migration (20 IT managers, 30K users, 100 different sites).
 - Creation of a central SQL database to manage all information related to the migration waves. Enable to provide us statistics on the progress of the project. 1300 migration waves and 30,000 migrated users in 9 months (messaging solution + office suite).
 - Planning, monitoring migration in direct connection with all customer IT managers for each region.

Jul. 2011 – Aug. 2012 System Engineer (VMware, Microsoft, Citrix) @ Orange Business Services (UA Neocles)

- ⇒ Integrated in a provider solution called "*Forfait Informatique*": cloud computing offer for SME which want to outsource their IT infrastructure. Managing the infrastructure and integration of the new customers.
- ⇒ **Technical environment**: vSphere 4.1 & 5.0, Windows Server 2008 R2, Citrix XenApp 6.5, RES Workspace Manager.
- ⇒ **POC realization**: feasibility studies, verification of the compatibility of customers apps before their integration: production of technical documents and customer proposals.
- ⇒ **Pre-sales support**: support business during the pre-sales phases (understanding of customer needs, cost estimates, realization of customer audits). Direct contact with direct / indirect sales teams and customers.

Education

2009-2011 ENGINEER GRADE – ECE PARIS (*ECOLE CENTRALE D'ELECTRONIQUE*)

- ⇒ Specialization in **Information Systems** and Networks.
 - **International** section: *courses taught in English*.
 - Education deepening: **IT Security** (*Security audits, Ethical hacker, Information value, Cyber criminality*).
- ⇒ *2nd year* - **University of California, Irvine**: Seminar of *Global Management and Manufacturing Program* - (UCI, 3 weeks).
- ⇒ *1st year* - **Concordia University, Montreal**: **English semester** at Concordia University - (1 semester) - *Digital Design, Engineering management, Electrical and Computer Engineering*.

2007-2008 PREPARATORY CYCLE – ECE PARIS (*ECOLE CENTRALE D'ELECTRONIQUE*)

2006 BACCALAUREAT SCIENTIFIQUE (Physics Specialty, Spanish)

Skills

- **Cloud**: Azure & Office 365 certified, Amazon AWS trained.
- **Microsoft**: Windows XP to Windows 10 & Windows Server 2003 to 2016, Active Directory, Hyper-V, RDS/TSE (RemoteApp), SQL Server, SSRS, (2008 R2 to 2016), SCVMM, Microsoft Office 2010 to 2016 + Project & Visio.
- **Citrix**: XenApp 6.5 & XenDesktop 7+, StoreFront, Web Interface, VDI-in-a-Box, NetScaler VPX (Citrix's network appliance)
- **VMware**: vSphere 5.0, 6.0 (ESXi), vCenter, Lab Manager, ThinApp, Fusion, Workstation.
- **Linux**: Apache, MySQL, ProFTPD, SSH, Iptables, Postfix, Samba, SVN, Monit, Webmin, UFW, ...
- **Packaging**: AdminStudio, InstallShield, App-V.
- **Programming**: PowerShell, C#, Batch, ASP.NET, Web (PHP, HTML, CSS, MySQL), CMS (WordPress, Drupal).
- **Oral and writing skills**: can manage customers meeting & presentation and writing technical documentations.
- **Spoken languages**: *French* (native language), *English*: read, written, spoken. (TOEIC: 800), *Spanish*: school level.
- **Last certifications**:
 - ◆ VCTA-ODA - Varonis Certified Technical Associate (Operational Use)
 - ◆ VCTA-I - Varonis Certified Technical Associate (Installation & Configuration)
 - ◆ MCSE – Cloud Platform and Infrastructure (*70-533 - Implementing Azure Infrastructure Solutions*)
 - ◆ CCE-V - Citrix Certified Expert – Virtualization
 - ◆ MCSE - Server Infrastructure (*renewed in May 2016*) & Desktop Infrastructure
 - ◆ MCTS – Office 365, Administration (*70-323 - Administering Microsoft Office 365*)
 - ◆ MCITP – Office 365, Deployment (*70-321 - Deploying Office 365*)
 - ◆ VCA-DCV - VMware Certified Associate – DCV
- **Last Trainings**:
 - ◆ GK4502: AWS - Architecting on AWS
 - ◆ 1Y0-200: Managing App and Desktop Solutions with Citrix XenDesktop 7
 - ◆ 1Y0-350: Citrix NetScaler 10 Essentials & Networking
